**Re: Hamilton Drainage Works
Maintenance and Repair, 2025
File No.: D-AM-SUP**

Dear Ms. Martin,

Enclosed is an invoice from Demmans Excavating Inc. for the cleanout of the above drain. As for the excavated material, the owners requested to deal with it privately on their respective farms. This now completes the maintenance work on the Hamilton Drain.

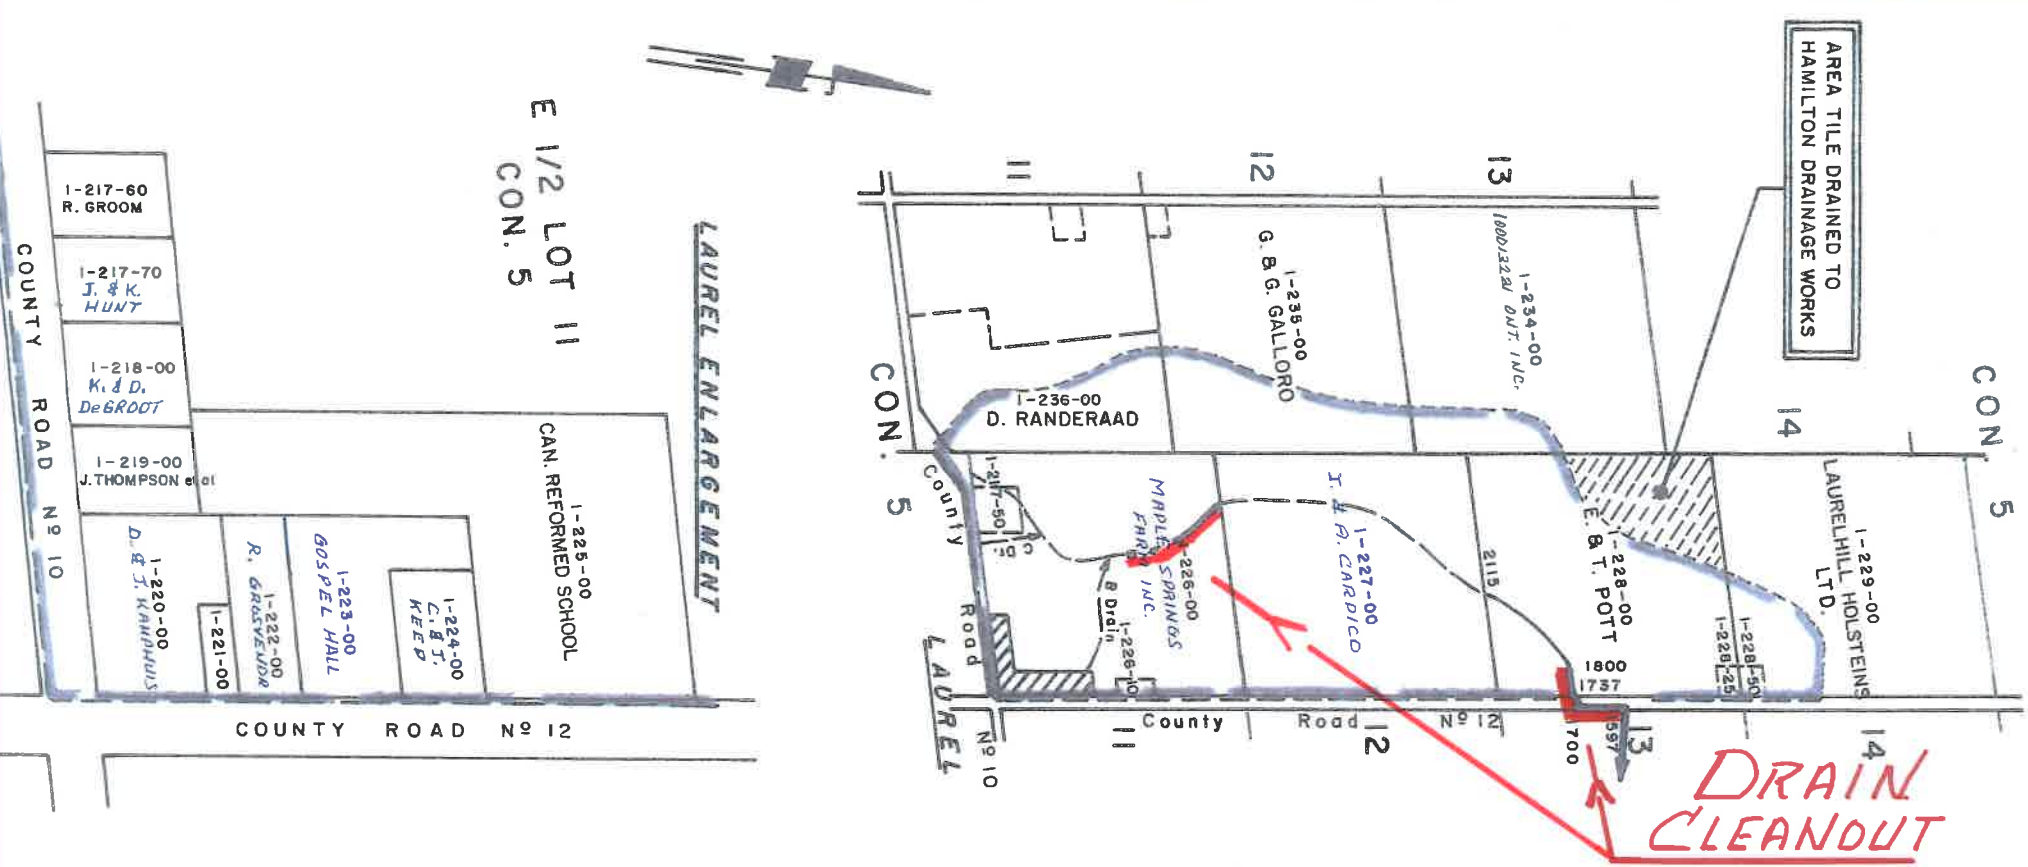

The total cost of the work is more than our original estimate due to a request to also clean a similar amount on Lot 11. As all of the Drain on Lot 12 and most on Lot 13, is a closed tile drain, there is still some open ditch located on Lot 11. As far as we are aware, no maintenance on this stretch of open ditch has been done since the last cleanout under a 1977 report. This now brings the top end of the open ditch, all back to its governing design. The owners are well satisfied with the excellent work done by the Contractor and we hope Council is as well.

The invoice in the amount of \$3,339.16, including the HST, has been verified and is authorized to be paid. The costs may now be tabulated and assessed to the drainage area pursuant to Section 74. We would be pleased to assist you with the levying schedule and by-law.

Yours truly,

R. J. Burnside & Associates Limited
Drainage Superintendent
